

20" WeatherBond® EPDM White Peel & Stick Cured Flashing
June 14, 2018

WeatherBond Roofing Systems is pleased to introduce its 20" WeatherBond EPDM White Peel & Stick (P&S) Cured Flashing. Featuring a monolithic 20" of White Peel & Stick Seam Tape, this labor-saving accessory can be used for a variety of curb and pipe flashing details.

WeatherBond 20" WeatherBond EPDM White Peel & Stick Cured Flashing	
Product Code	332389
Stocking Locations	Carlisle, PA and Greenville, IL
Packaging	One 20" x 50' roll per carton
Weight	50 lbs per carton
Storage Requirements	Store between 60-90°F (15-32°C)
Product Notes	WeatherBond White 60-mil cured EPDM with 30-mil White Peel & Stick Seam Tape 1-year shelf life Coat curbs with EPDM Primer prior to installation Poly release film is slit 6" in from the edge

Simply clean and prime the deck membrane and curb, cut the 20" flashing to length, peel the release liner, stick the flashing in place and roll to ensure proper adhesion. WeatherBond's 20" White P&S Cured Flashing is also ideal for use as a target splice when installing EPDM pipe details on mechanically attached TPO roof systems; additional membrane securement around pipes can now be overlaid with a single piece of flashing instead of four individual pieces.

If you have any questions, or for more information, please contact your local WeatherBond representative.

Sincerely,

Ronald L. Goodman
EPDM Marketing Manager
