

WeatherBond

Recognized contractor Program

As a leading supplier of single-ply roofing systems, WeatherBond recognizes both the importance of education and experience when it comes to installing single-ply roofing systems. The roofing contractor as well as the building owner benefit when an experienced and educated roofing contractor installs a high quality roofing solution.

Exclusive Access

In an effort to reward those contractors who reflect our values, WeatherBond has created its Recognized Contractor Program. WeatherBond's Recognized Contractor Program provides contractors with exclusive access to WeatherBond's 10-,15-and 20-year extended warranties, which covers both material as well as labor to replace that material. Building owners can now choose to have a Recognized Contractor install their roof, allowing peace of mind, and the option of an extended warranty.

In addition to providing exclusive 10-,15-and 20-year extended warranties, the Recognized Contractor Program offers its members access to educational and installation tools. These tools include rooftop guides, installation videos and material estimators.

Becoming a Recognized Contractor

To become a WeatherBond Recognized Contractor and take advantage of these benefits, Contractors should visit WeatherBond's website at www.weatherbondroofing.com and fill out the Recognized Contractor application. After receiving approval confirmation from WeatherBond, Contractors can immediately begin enjoying the benefits of being a WeatherBond Recognized Contractor.

WeatherBond is a nationally distributed provider of low-slope, single-ply roofing systems. WeatherBond systems include EPDM, available in black and white, TPO and PVC. A full line of prefabricated and peel-and-stick accessories are available for all three systems. WeatherBond continues to offer affordable and reliable single-ply roofing options, proving that WeatherBond is... "Roofing that Fits." For more information, call 866.471.5125 or visit www.weatherbondroofing.com.
