Weld-Free TPO

WeatherBond Weld-Free TPO

An Easy, Cool Roofing Option

More building owners are looking for energy-efficient, reflective roofing systems. Now WeatherBond can provide an ENERGY STAR®-qualified TPO roofing system without the need for costly heat welding equipment.

No Welding Required

WeatherBond's unique Weld-Free TPO System can be mechanically attached or fully adhered to the roof deck. White Peel & Stick seam tape provides an easy way to finish the system. Combine this simple seam installation with WeatherBond's Peel & Stick accessories, and you can quickly and easily give your customers the reflective, cool roofing option they have been looking for.

The Weld-Free TPO System from WeatherBond is an energy-efficient, cool roofing option that can be fully adhered or mechanically attached without the use of a heat welder.

Compatibility

WeatherBond's Weld-Free TPO is compatible with Peel & Stick accessories for faster, easier installation.
