Most Important Symptoms/Effects

Acute

Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. May cause damage to respiratory system, nervous system, kidney, blood, liver.

Delayed

No information on significant adverse effects.

Section 5 - FIREFIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media

Use regular dry chemical, foam, or carbon dioxide.

Unsuitable Extinguishing Media

Water may be ineffective. Do not use high-pressure water streams.

Special Hazards Arising from the Chemical

Highly flammable liquid and vapor. May be ignited by heat, sparks or flames. The vapor is heavier than air. Vapors or gases may ignite at distant ignition sources and flash back. Vapor/air mixtures are explosive.

Hazardous Combustion Products

Safety Data Sheet

Material Name: Low-VOC Membrane Cleaner

Product# 326160 – 1 gallon pail
326860 – 5 gallon pail

Toxic gases: carbon monoxide, carbon dioxide

Firefighting Measures

Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. ALWAYS stay away from tanks engulfed in fire.

Special Protective Equipment and Precautions for Firefighters

Wear full protective firefighting gear including self-contained breathing apparatus (SCBA) for protection against possible exposure.

Section 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Wear personal protective clothing and equipment, see Section 8.

Methods and Materials for Containment and Cleaning Up

Remove all sources of ignition. Avoid breathing vapors. Use appropriate protective equipment including self-contained breathing apparatus. Ventilate area. Use non-sparking tools and equipment. Flammable liquid. Runoff may create fire or explosion hazard. A vapor suppressing foam may be used to reduce vapors. Eliminate all sources of ignition. All equipment used when handling the product must be grounded. Stop leak if this can be done without risk. Do not touch or walk through spilled material. Prevent entry into waterways, sewers, basements, or confined areas. Absorb with earth, sand or other non-combustible material and transfer to container. Use non-sparking tools during clean-up. Large spills: Keep unnecessary people away, isolate hazard area and deny entry. Prevent entry into waterways, sewers, basements, or confined areas. Dike far ahead of liquid spill for collection and later disposal. Additionally, for large spills: Water spray may reduce vapor, but may not prevent ignition in closed spaces. Run-off to sewer may create a fire hazard. Use clean non-sparking tools to collect absorbed material and place it into loosely-covered metal or plastic containers for later disposal. Comply with all applicable regulations on spill and release reporting.

Environmental Precautions

Avoid release to the environment.

Section 7 - HANDLING AND STORAGE

Precautions for Safe Handling

Runoff to sewer may cause a fire or explosion hazard. Do not handle or store near an open flame, heat or other sources of ignition. Keep container tightly closed. Ground/Bond container and receiving equipment. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use explosion-proof electrical/ventilating/lighting equipment. Take precautionary measures against static discharge. Use only non-sparking tools. Do not breathe vapor. Use only with adequate ventilation. Use personal protection equipment. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Do not store near food, drink, or tobacco products. KEEP OUT OF REACH OF CHILDREN.

Individual Protection Measures, such as Personal Protective Equipment

Eye/face protection

Safety glasses or goggles are recommended when there is a potential for eye contact. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.

Skin Protection

Wear appropriate chemical resistant clothing.

Respiratory Protection

In case of inadequate ventilation wear respiratory protection.
