No information on significant adverse effects.

Section 5 - FIREFIGHTING MEASURES

**Extinguishing Media**

**Suitable Extinguishing Media**
Use regular dry chemical, foam, or carbon dioxide.

**Unsuitable Extinguishing Media**
Water may be ineffective. Do not use high-pressure water streams.

**Special Hazards Arising from the Chemical**
Highly flammable liquid and vapor. May be ignited by heat, sparks or flames. The vapor is heavier than air. Vapors or gases may ignite at distant ignition sources and flash back. Vapor/air mixtures are explosive.

**Hazardous Combustion Products**
Safety Data Sheet

Material Name: Low-VOC Membrane Cleaner

Toxic gases: carbon monoxide, carbon dioxide

**Firefighting Measures**
Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. ALWAYS stay away from tanks engulfed in fire.

**Special Protective Equipment and Precautions for Firefighters**
Wear full protective firefighting gear including self-contained breathing apparatus (SCBA) for protection against possible exposure.

---

**Section 6 - ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**
Wear personal protective clothing and equipment, see Section 8.

**Methods and Materials for Containment and Cleaning Up**
Remove all sources of ignition. Avoid breathing vapors. Use appropriate protective equipment including self-contained breathing apparatus. Ventilate area. Use non-sparking tools and equipment. Flammable liquid. Runoff may create fire or explosion hazard. A vapor suppressing foam may be used to reduce vapors. Eliminate all sources of ignition. All equipment used when handling the product must be grounded. Stop leak if this can be done without risk. Do not touch or walk through spilled material. Prevent entry into waterways, sewers, basements, or confined areas. Absorb with earth, sand or other non-combustible material and transfer to container. Use non-sparking tools during clean-up. Large spills: Keep unnecessary people away, isolate hazardous area and deny entry. Prevent entry into waterways, sewers, basements, or confined areas. Dike far ahead of liquid spill for collection and later disposal. Additionally, for large spills: Water spray may reduce vapor, but may not prevent ignition in closed spaces. Run-off to sewer may create a fire hazard. Use clean non-sparking tools to collect absorbed material and place it into loosely-covered metal or plastic containers for later disposal. Comply with all applicable regulations on spill and release reporting.

**Environmental Precautions**
Avoid release to the environment.

---

**Section 7 - HANDLING AND STORAGE**

**Precautions for Safe Handling**
Runoff to sewer may cause a fire or explosion hazard. Do not handle or store near an open flame, heat or other sources of ignition. Keep container tightly closed. Ground/Bond container and receiving equipment. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use explosion-proof electrical/ventilating/lighting equipment. Take precautionary measures against static discharge. Use only non-sparking tools. Do not breathe vapor. Use only with adequate ventilation. Use personal protection equipment. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Do not store near food, drink, or tobacco products. KEEP OUT OF REACH OF CHILDREN.
Conditions for Safe Storage, Including any Incompatibilities
Store in a well-ventilated place. Keep container tightly closed.

Provide local exhaust ventilation system. Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Individual Protection Measures, such as Personal Protective Equipment

Eye/face protection
Safety glasses or goggles are recommended when there is a potential for eye contact. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.

Skin Protection
Wear appropriate chemical resistant clothing.

Respiratory Protection
In case of inadequate ventilation wear respiratory protection.

Glove Recommendations
Wear appropriate chemical resistant gloves.
