Section 1 - PRODUCT AND COMPANY IDENTIFICATION

Material Name: Sure-White Lap Sealant  
Synonym: Sealant  
Chemical Family: Solvent Based Sealant  
Product Use: Sealant for EPDM Single-Ply Roofing Membranes  
Restrictions on Use: For industrial use only.

Manufacturer Information
Weatherbond  
P.O. Box 215  
Plainfield, PA 17081 USA  
Phone: +1-866-471-5125  
Emergency Phone #: +1-800-424-9300 (Chemtrec)

Section 2 - HAZARDS IDENTIFICATION

Classification in accordance with paragraph (d) of 29 CFR 1910.1200.  
Flammable Solid - Category 1  
Skin Corrosion/Irritation - Category 2  
Serious Eye Damage/Eye Irritation - Category 2A  
Carcinogen- Category 1B

GHS Label Elements
Symbol(s)

Signal Word  
Danger  

Hazard Statement(s)  
Flammable solid  
Causes skin irritation.  
Causes serious eye irritation.  
May cause cancer.

Precautionary Statement(s)  
Prevention
If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.
Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
Use explosion-proof electrical/ventilating/lighting/equipment.
Wear protective gloves / eye protection / face protection.
Wear protective gloves.
Wear eye protection / face protection.
Ground/bond container and receiving equipment.
Wash thoroughly after handling.
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Specific treatment (see on this label).
IF exposed or concerned: Get medical advice/attention.
If skin irritation occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
In case of fire: Use for extinction: CO2, powder or water spray.
If on skin: Wash with plenty of water.
Take off contaminated clothing and wash it before reuse.
Store locked up.
Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards

· Results of PBT and vPvB assessment

· PBT: Not applicable.
· vPvB: Not applicable.

Additional information:
It is highly unlikely the powders and pigments compounded within this product would pose a hazardous risk from inhalation as they are no longer a respirable particulate. Exposure to these ingredients as used in sealants, putties, bedding compounds and other non-sprayable products is highly unlikely. The concentrations listed in the composition section are percent by weight unless a gas. Gas concentrations are expressed in percent by volume.

Section 4 - FIRST AID MEASURES

Description of Necessary Measures
If exposed or concerned: Get medical advice/attention.

Inhalation
Remove to fresh air and seek medical attention.

Skin
Immediately wash with water and soap and rinse thoroughly

Eyes
Rinse opened eye for 20 minutes under running water. If eye becomes irritated, obtain medical treatment

Ingestion
If swallowed, get medical attention.

Information for doctor:
· Most important symptoms and effects, both acute and delayed
No further relevant information available.
· Indication of any immediate medical attention and special treatment needed
No further relevant information available.

Section 5 - FIRE FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media
CO2, extinguishing powder or water spray. Fight larger fires with water spray
Material Name: Sure WhiteLap Sealant

Special Hazards Arising from the Chemical
Formation of toxic gases is possible during heating or in case of fire.

Fire Fighting Measures
Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

Section 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures
Ensure adequate ventilation.

Methods and Materials for Containment and Cleaning Up
Dispose of contaminated material as waste in accordance with federal state and local regulations. Ensure adequate ventilation.

Environmental Precautions
Do not allow to enter sewers/ surface or ground water.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

Section 7 - HANDLING AND STORAGE

Precautions for Safe Handling
Avoid prolonged or repeated contact with skin. Avoid contact with eyes. Wash thoroughly after handling. Open and handle receptacle with care

Information about protection against explosions and fires:
Keep container closed when not in use

Conditions for Safe Storage, Including any Incompatibilities

Storage
Requirements to be met by storerooms and receptacles: No special requirements.
· Information about storage in one common storage facility:
Store away from oxidizing agents.
· Further information about storage conditions:
Keep receptacle tightly sealed.

**Additional information:**
The lists that were valid during the creation were used as basis.
- Exposure controls
- Personal protective equipment (see listings below)
Material Name: Sure White Lap Sealant
Product #: 302174

- General protective and hygienic measures:
  Keep away from foodstuffs, beverages and feed.
  Immediately remove all soiled and contaminated clothing.
  Wash hands before breaks and at the end of work.
  Store protective clothing separately.

- Breathing equipment:
  Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

**Individual Protection Measures, such as Personal Protective Equipment**

**Eye/face protection**
Safety glasses with side shields. Tightly sealed goggles.

**Skin Protection**
Protective work clothing.

**Glove Recommendations**
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

  - Material of gloves
    Nitrile rubber, NBR
    Chloroprene rubber, CR
  
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

  - Penetration time of glove material
    The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Other Information**
No additional information available.

### Section 10 - STABILITY AND REACTIVITY

**Reactivity**
No reactivity hazard is expected.

**Chemical Stability**
Stable under normal conditions of use.

**Possibility of Hazardous Reactions**
Hazardous polymerization will not occur.

**Conditions to Avoid**
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials.

**Incompatible Materials**
Strong oxidizing agents, acids, bases

**Hazardous decomposition products**
Oxides of carbon, oxides of nitrogen

### Section 11 - TOXICOLOGICAL INFORMATION

**Information on Likely Routes of Exposure**
Material Name: Sure White Lap Sealant

Inhalation
May cause respiratory irritation.

Skin Contact
Causes skin irritation.

Eye Contact
Causes serious eye irritation.

Ingestion
May cause gastrointestinal irritation.

Acute and Chronic Toxicity

Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and the following selected endpoints are published:
Severely hydrotreated paraffinic oil (Trade Secret)
  Oral LD50 Rat >5000 mg/kg
  Dermal LD50 Rabbit >2000 mg/kg

Carbon compound (Trade Secret)
  Oral LD50 Rat >15400 mg/kg

Polyphenol antioxidant (Trade Secret)
  Oral LD50 Rat >200 mg/kg
  Dermal LD50 Rabbit >5010 mg/kg

Naphtha, petroleum, light aliphatic (64742-89-8)
  Oral LD50 Mouse 5000 mg/kg
  Dermal LD50 Rabbit 3000 mg/kg

Solvent naphtha, petroleum, medium aliphatic (64742-88-7)
  Oral LD50 Rat >5000 mg/kg
  Dermal LD50 Rabbit 3000 mg/kg

Silica, crystalline (14808-60-7)
  Oral LD50 Rat 500 mg/kg

Immediate Effects
Cause skin irritation. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. May cause gastrointestinal irritation.

Delayed Effects
Causes damage to organs through prolonged or repeated exposure: lungs, central nervous system.

Irritation/Corrosivity Data
Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation.

Respiratory Sensitization
No data available.
Dermal Sensitization
It may cause sensitization in some individuals.

### Germ Cell Mutagenicity
No data available.

### Reproductive Toxicity
No data available.

### Specific Target Organ Toxicity - Single Exposure
May affect the central nervous system: drowsiness, dizziness.

### Specific Target Organ Toxicity - Repeated Exposure
May cause damage to organs through prolonged or repeated exposure: lungs, central nervous system.

### Aspiration hazard
May cause aspiration hazard.

### Medical Conditions Aggravated by Exposure
May cause allergic skin reaction. Aspiration into the lungs may cause chemical pneumonitis.

Additional Data
This product contains crystalline silica, which is a known carcinogen. However, this component is bound by the polymer portion of the sealant. The only way this component would be released is through incineration. Therefore, this product is not considered a carcinogen.

---
