Single-Ply Simplified

WeatherBond **EPDM**

WeatherBond's EPDM Fully Adhered Roofing System provides building owners with a long-lasting, dependable roof system and applicators with a fast and easy installation. Ideal for four season environments because of its ability to expand and contract in wide temperature extremes.

The benefits of WeatherBond EPDM include:

- Black and white accessories, including seam tape, pipe boots, flashings, corner covers and more
- Available with pre-applied seam tape, reducing time required to complete seams
- Proven performance for more than 40 years

WeatherBond **TPO**

WeatherBond TPO is a complete heat-weldable single-ply roofing product line that can be either mechanically attached or fully adhered and provides extreme flexibility and long-term durability.

WeatherBond TPO also offers:

- ENERGY STAR® qualification
- Industry-leading weathering package that provides superb resistance to UV exposure
- Complete line of heat-weldable prefabricated accessories
- TPO special colors also available

WeatherBond **Weld-Free TPO**

The Weld-Free TPO System from WeatherBond is an energy-efficient, cool roofing option that can be fully adhered or mechanically attached without the use of a heat welder. White Peel & Stick accessories are used to complete details.

Weld-Free TPO features:

- Industry-leading weathering package that provides superb resistance to UV exposure
- Compatibility with Peel & Stick accessories for faster, easier installation
- Cool roof properties and a high reflectivity rating

WeatherBond **PVC**

WeatherBond PVC (polyvinyl chloride) membrane can be mechanically attached or fully adhered and features many cool roof attributes, contributing to the reduction of a building's energy costs.

WeatherBond PVC is:

- Puncture, fire and chemical resistant
- Complete line of prefabricated accessories such as walkway rolls, inside and outside corners and pipe seals
- Designed with the most stringent quality control measures for long-term extended performance

WeatherBond offers roofing contractors easy-to-install, competitively priced and nationally distributed single-ply roofing systems. Whether you need ease of installation, ease of purchase, or simply the right product for the right application, WeatherBond offers Single-Ply Simplified.

Warranties:

WeatherBond offers unparalleled warranties.

WeatherBond offers unparalleled warranties for both commercial and residential applications. Offering both a material warranty and an extended warranty that includes labor costs, WeatherBond has a solution for all of your roofing system and warranty needs.

Recognized Contractors:

As a leading supplier of single-ply roofing systems, WeatherBond recognizes the importance of education and experience when it comes to installing single-ply roofing systems. In an effort to reward those contractors who reflect our values, WeatherBond has created its Recognized Contractor Program.

WeatherBond's Recognized Contractor Program provides contractors exclusive access to WeatherBond's extended warranties which cover material and labor. The program offers members access to educational and installation tools, including rooftop guides, installation videos and material estimators. Building owners who choose to have a Recognized Contractor install their roof enjoy additional peace of mind and the option of an extended warranty.
