

WeatherBond EPDM

Peel & Stick (PAS) Membrane

WeatherBond's PAS EPDM membrane offers excellent weatherability and hail resistance while providing significant labor savings on the rooftop. EPDM's 50-plus years of proven performance, in combination with WeatherBond's Peel & Stick Technology, results in an easy-to-install system that makes contractors more productive and leaves building owners more satisfied.

Sustainable and Resilient Solution

- Superior weatherability and puncture resistance
- Unmatched resistance to ozone, UV radiation, and freeze/thaw cycles
- Greater thickness of weathering protection versus plastic-based sheeting
- Ability to elongate over 400% translates into fantastic hail resistance

Peel & Stick Technology

- 100% fully pressure-sensitive adhesive laminated to EPDM sheeting in a controlled environment
- Dual split release liner allows for easy installation
- Compatible with the majority of WeatherBond-approved roofing substrates
- PAS qualifies as a low-VOC option

Benefits of PAS EPDM

- Provides up to 80% productivity increase compared to traditional bonding adhesives
- Eliminates loading, stirring, application, and disposal of bonding adhesive
- No fumes or odors minimizes disruption on occupied buildings
- All PAS EPDM comes standard with time-tested and proven Pre-Applied Seam Tape technology
- Available in Non-Reinforced EPDM, Reinforced EPDM, and White EPDM
