

WeatherBond

Insulation Fastening Plates

Overview

WeatherBond Insulation Fastening Plates are specifically designed for attachment of insulation under WeatherBond roofing systems. Insulation Fastening Plates are stamped from Galvalume®-coated steel for long-term protection against corrosion. The round design provides an even distribution of loads and eliminates sharp corners that can damage insulation.

Installation

1. Position insulation plates per WeatherBond Specifications.
2. Secure insulation plates using the appropriate WeatherBond fastener.

REVIEW CURRENT WEATHERBOND INSTALLATION INSTRUCTIONS FOR SPECIFIC INSTALLATION REQUIREMENTS.

Precautions

1. Eye protection is recommended during drilling and installation of fasteners.

Typical Properties and Characteristics

Size	3" Round
Weight/Carton	37 lbs.
Quantity	1000 / Carton
Material	Galvalume-Coated Steel
Thickness	26 Gauge
Corrosion Resistance	Galvalume-Coated Steel meets the FM 4470 test

Typical properties and characteristics are based on samples tested and are not guaranteed for all samples of this product. This data and information is intended as a guide and does not reflect the specification range for any particular property of this product.
