Re-roofing Guide
Selecting the right replacement roof for your building is an important decision. Because every building has its own unique requirements, the roofing experts at WeatherBond offer a wide variety of re-roofing products and systems. This guide will help to identify the ideal system for your facility based on your existing roof system, energy-efficiency goals, and budget. WeatherBond’s comprehensive product offering can provide solutions for virtually any re-roofing project.

### Options for Re-roofing

Warranty Options
WeatherBond offers unparalleled warranties for both commercial and residential applications. Offering both a material warranty and an extended warranty that includes labor costs, WeatherBond has a solution for all of your roofing system and warranty needs.

Limited Lifetime Residential & Non-Residential Membrane Material Warranties
- This application should be completed to obtain a membrane material warranty at no charge.
- Workmanship is not covered under this warranty and therefore no inspection of the roofing system will be conducted by WeatherBond.
- Upon submittal of this application, the warranty document will be sent electronically to the email addresses provided on the application.

Extended Material Warranty
- The WeatherBond Extended Warranty is only available to WeatherBond Recognized Contractors.
- If you are not a WeatherBond Recognized Contractor, an application must be completed and submitted prior to submitting a request for an Extended Material Warranty.
- After completion of the Extended Warranty Application, WeatherBond will process the request and send the invoice to the Recognized Contractor.
- Upon payment, WeatherBond will send the warranty documentation to the WeatherBond Recognized Contractor address on file.
