

# WeatherBond

## Term Bar Fascia

### Overview

WeatherBond's Term Bar Fascia features a 1.75"-wide formed aluminum termination bar with pre-slotted fastening holes for ease of locating and installing. The decorative cover is available in .040" aluminum or 24-gauge galvanized steel. Term Bar Fascia is manufactured in 12' lengths for fewer joints/seams, fewer sections to handle, and faster installation.

### Features and Benefits

- 1.75" bar and decorative cover provides a cleaner finished look than standard termination bar
- Manufactured in convenient 12' lengths with pre-punched slotted fastening holes to ensure proper fastener placement
- Can be used as an economical option for roof edge securement
- ANSI/SPRI ES-1 tested to comply with International Building Code (IBC)

### Installation

For complete installation instructions visit [www.weatherbondroofing.com](http://www.weatherbondroofing.com).

### Precautions

1. Natural mill finish aluminum
2. Premium metallic Kynar 500®
3. Anodized aluminum – clear, bronze, or black
4. Custom post-painted Kynar finishes available upon request

### Quality Assurance

Tested per ANSI/SPRI Test Method RE-2 Pull-off Test for Fascia. Fascia shall be certified by WeatherBond to design pressures as indicated in current edition of SPRI's Wind Resistance Standard for Edge Systems Used with Low-Slope Roofing Systems. Meets International Building Code.
