

To: WeatherBond Roofing Systems' Independent Sales Representatives and Distributors

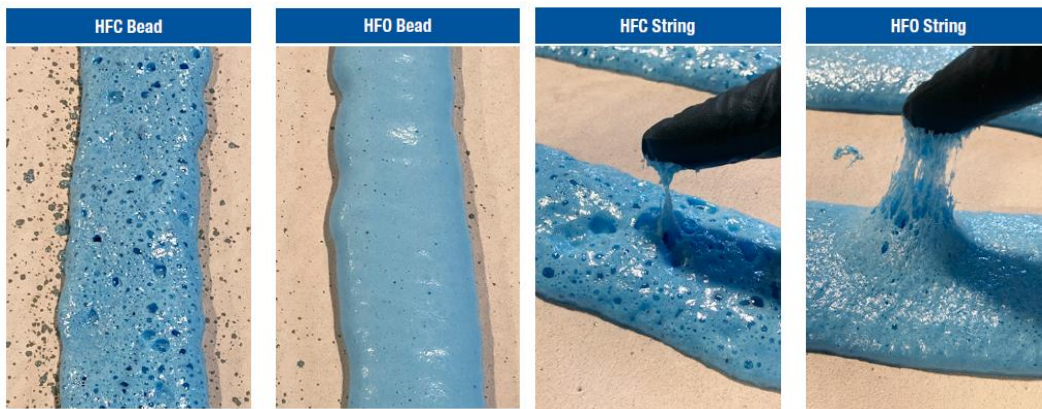

WeatherBond Roofing Systems is pleased to add the next generation of Flexible DASH™ Dual Tanks to the Fleece product line. Flexible DASH HFO Dual Tanks contain a hydrofluoroolefin (HFO) blowing agent that is widely recognized as the most environmentally friendly option available, drastically reducing Global Warming Potential (GWP). Offering an eco-friendly solution that provides increased performance makes the next generation of Flexible DASH Dual Tanks an ideal option for new construction and re-roofing projects.

Effective January 1, 2021, several states in the U.S. (Washington, California, Colorado, New York, Vermont, Massachusetts, New Jersey, Maryland) have implemented phase-out dates for high-GWP blowing agents in low-pressure polyurethane foams and adhesives. Many other states have active rulemaking in progress.

Flexible DASH Dual Tanks utilizing the HFO blowing agent provide improved adhesion, coverage rates, string time, and cell structure. VOC-free Flexible DASH HFO Dual Tanks are the most recent example of WeatherBond's dedication to provide environmentally friendly products.

Features and Benefits:

- Green alternative, offering low GWP and zero ODPs (Ozone Depleting Particles)
- Improved Coverage Rates – Up to 16% more coverage than other canister-based insulation and membrane adhesives
- Improved String Time – Open window improved by 2 minutes
- Improved Rise and Cell Structure – Provides consistent splatter application
- No Elevation Restrictions – HFO blowing agents provide formulation stability

Flexible DASH™ Dual Tanks (HFO)			
Splatter (ft²)	4" O.C. (ft²)	6" O.C. (ft²)	12" O.C. (ft²)
2,600-2,800*	1,100-1,300	1,700-1,900	3,500-3,700

*Splatter application approved for membrane attachment to smooth, flat surface. Dual Tank splatter application is not approved for insulation attachment.

Please note that current (HFC) Flexible DASH Dual Tanks cannot be mixed with HFO Flexible DASH Dual Tanks. To avoid any potential crossover, WeatherBond has changed the boxes, labeling, and the connection fitting on the tanks.

All inventory of Flexible DASH Dual Tanks with a 2020 manufacture or fill date can continue to be sold in HFC restricted areas until inventory is depleted.

Flexible DASH™ HFO Dual Tanks		
Product Description	Product Code	Stocking Locations
Flexible DASH Part A (HFO) (Each Part A carton contains 1 gun, 1 hose, 10 nozzle tips, and 10 nozzle extensions)	336340	C, G, S, T
Flexible DASH Part B (HFO)	336342	C, G, S, T
25' Hose with Gun (HFO)	341411	C, G, T
Color-Changing Nozzle Tips (10/pack) (HFO)	341412	C, G, T
14" Extension Nozzle Tubes (10/pack) (HFO)	330881	C

C = Carlisle, PA; G = Greenville, IL; S = Senatobia, MS; T = Tooele, UT
