

Gray LIQUISEAL® Liquid Flashing Resin
July 30, 2019

To: WeatherBond Roofing Systems' Contractors

WeatherBond Roofing Systems is pleased to introduce the newest addition to its LIQUISEAL product line: Gray LIQUISEAL Liquid Flashing Resin. This new product is very similar to WeatherBond's White LIQUISEAL Liquid Flashing Resin, but it is light gray in color to better match gray WeatherBond TPO and gray WeatherBond PVC membranes.

Gray LIQUISEAL Liquid Flashing Resin is used to create a reinforced, cold-applied liquid flashing solution that is ideal for oddly shaped penetrations. It is compatible with all WeatherBond EPDM, TPO, PVC, and KEE HP membranes and is UV- and color-stable, solvent-free, low-VOC, and virtually odorless.

Product Code	Product Description	Stocking Location	Packaging
333301	LIQUISEAL GRAY FLASHING RESIN (.5G)	Carlisle, PA	8/Carton
333302	LIQUISEAL GRAY FLASHING RESIN (1G)	Carlisle, PA	1-Gallon Pail

If you have any questions, or for more information, please contact your independent sales representative.

Sincerely,

Adam Burzynski
TPO Product Manager
