

Yellow Pressure-Sensitive Warning Strip for PVC
June 18, 2020

To: WeatherBond Roofing Systems' Contractors

WeatherBond Roofing Systems is pleased to introduce its labor-saving 6" x 100' Yellow Pressure-Sensitive (PS) Warning Strip for use on PVC and KEE HP membranes. This pressure-sensitive product eliminates the need for welding equipment, generators, and extension cords; and uses the same Low-VOC PVC Step 1 Activator and Step 2 Primer as WeatherBond's PVC PS Cover Strip.

The highly visible, bright yellow warning strip is easy to apply and is ideal for rooftops that receive frequent visits from maintenance personnel. It provides a permanent visual warning of roof edges and other impending hazards such as penetrations, drain sumps, low horizontal pipes, and skylights.

Product Code	Description	Unit	FT2/Roll	Wt./Pkg. Unit	Stk. Loc.
325721	Yellow PS Warning Strip 6" X 100' 2/CTN	FT2	50	41 lbs.	C,S,T
