WeatherBond's PAS TPO – New 25°F Application Temperature and 12-Foot-Wide Rolls April 4, 2024

To: WeatherBond Roofing Systems' Recognized Contractors

WeatherBond Roofing Systems is excited to introduce the industry's first-ever 12-foot-wide PAS (Peel & Stick) TPO membrane and announce new 25°F (-4°C) cold weather temperature limits for all WeatherBond PAS TPO Reinforced Membranes.

WeatherBond's 12-foot TPO boosts productivity on adhered roofs by cutting down on the number of rolls needed and reducing the number of seams on the roof. PAS TPO combines the energy-efficiency and durability of WeatherBond's traditional TPO with the ease of installation associated with peel-and-stick membranes. Trial installations have confirmed that WeatherBond's PAS TPO helps reduce labor costs compared to traditional fully adhered TPO installations.

These new 25°F (-4°C) cold weather temperature limits were developed from years of extensive field trials, resulting in the combination of an improved adhesive with WeatherBond's time-tested TPO membrane. This new combination provides superior resistance to unwanted wrinkles in the membrane due to expansion, as well as excellent adhesion. The lack of solvents means installations are more environmentally friendly and odor-free, making PAS TPO ideal for hospitals, nursing homes, schools, and other buildings with sensitive occupants.

- New 25°F (-4°C) cold weather temperature limits
- Industry-leading, 12-foot-wide PAS membrane
- Up to 80% labor savings vs. traditional membrane and bonding adhesive
- No odors or VOCs to disrupt building occupants during re-roofing projects
- Exclusive Lay-Flat Technology provides a wrinkle-free appearance and superior performance
- Factory-applied adhesive ensures uniform coverage and performance
- Available in white, gray, and tan

WeatherBond PAS TPO membrane is now available in 10' x 50', 10' x 100', and 12' x 100' rolls in 60- and 80-mil. Rolls will be individually shrink-wrapped and 4-packed. Standard colors of white, gray, and tan are available.

Availability:

WeatherBond will accept orders for 12-foot PAS TPO today. All 12-foot PAS TPO deliveries will begin on April 22, 2024.
