

TPO AC Fleece Availability March 31, 2023

To: WeatherBond Roofing Systems' Recognized Contractors

WeatherBond Roofing Systems is pleased to announce that effective immediately, WeatherBond TPO AC Fleece membranes will be available for order again. Due to disruptions with WeatherBond's fleece suppliers, orders for this product had been put on hold temporarily.

As a reminder, TPO AC Fleece is compatible with Hot-Mopped or Cold-Applied adhesives and is available in total sheet thicknesses of 120, 135, and 155 mils. It is ideal for re-covering aged smooth-surface BUR, mineral cap sheets, or SBS-modified bitumen roofs. TPO AC Fleece can be used in conjunction with WeatherBond's Modified Base Sheets for a multiple-ply, redundant system. TPO AC Fleece is also approved for use in mechanically fastened systems. See below for product codes and stocking information.

TPO AC Fleece Membrane			
Code	Sheet Sizes	Weight	Stock
