

Dual-Tip Spray Applicator for CAV-GRIP® III Adhesive September 8, 2022

To: WeatherBond Roofing Systems' Contractors

WeatherBond Roofing Systems is pleased to introduce its Dual-Tip Spray Applicator, which is specially designed for use with CAV-GRIP III Adhesive systems. This productivity-boosting tool is a precision-machined dual-tip attachment that reduces application time by spraying two streams of adhesive with a single CAV-GRIP Spray Gun and Hose. In addition to reduced application time, the Dual-Tip Spray Applicator improves application consistency without impacting adhesive flow or coverage rates.

The Dual-Tip Spray Applicator comes fully assembled and ready to install on the standard CAV-GRIP Spray Gun and features interchangeable spray tips. The durable aluminum-and-brass attachment can be cleaned and reused for multiple installations. The Dual-Tip Spray Applicator should not be used with CAV-GRIP PVC.

Product Description	Product Code	Stocking Locations
Dual-Tip Spray Applicator	348903	C, G, T, S

C = Carlisle, G = Greenville, T = Tooele, S = Senatobia

If you have any questions or need more information, please contact your WeatherBond Independent Sales Representative.
